1992 Morgan Plus4 2.0 Litre 4 Seater Is there any sports car more typically British than a Morgan. The style is unique, and the drive is something that can only be a Morgan. Wherever you go, wherever you are there will always be someone who comes across to chat with you about your car. This car from 1992 is finished in Royal Ivory with Navy Blue leather interior and Navy Blue weather equipment. This is a 2 owner car. It has covered a mere 25600 miles and comes with a fully comprehensive service history combining stamps in the service book and bills invoices and receipts going right back to registration. Fitted with a Rover 2.0 fuel injected engine this car drives really well, is economical on fuel and has the space to store luggage inside and on the factory luggage rack. Its also fitted with a very expensive Stainless Steel Sports Exhaust with Tubular manifolds, and sounds superb. It's a stunning car. Almost unmarked in every way, certainly belying its age at almost 30 years...
